Red Deer Kinsmen 2nd annual family fishing derby February 17th

Smokey Lake Kinettes Cash Calendar

Advice from Hillary: It is worth taking on an executive position and exploring the other opportunities you have outside of your club. The journey not only has you meeting other awesome people, but, but it helps you in your personal growth. Take it from me, it's worth it. Also, go and check out other clubs events!!

Adams advice: I would like to remind fellow Kin that in the end we are serving our communities greatest needs, really in the end it's all for our communities and anything we can do to help is a great feeling>

Getting to know your DG's and Executive team

Kinette Deputy Governor Hillary Derksen Zone F

I originally joined Kin to volunteer in my community to make new friends. I have always been a member of the Kinette club of Lethbridge, and have been a member for two years. All of the ladies have had an impact on me. I would not have stepped up to a district position without the encouragement of several members in my club. I suppose that's an advantage I have of being part of a club where most members either currently sit or have sat in a district or national position. So far the [positions that I have held are Kin kid director, membership director, vice president and currently the Kinette deputy governor position..

One of my favorite memories so far has been competing in the public speaking competition, both at district convention and national convention. The public speaking competition was also my first national convention.

One goal I would like to achieve is to have a good portion of the members in my zone attend district convention this year, which is being held in our zone. I would like to see three members from each club.

Kinsmen Deputy Governor Adam Parker

Kin is something that has been in my life since a kid. My father was a member and my wife's father was a member and I remember some of the fun events that they attended. Now I did not think that Kin was for me because I worked out of town and never had a lot of time to give. Life changed and the Kinsmen club of Coaldale noticed that I was around town more because I had changed jobs and was no longer traveling. They approached me to come to a couple of meetings and try it out. Well a couple of meetings later, with a group of guys that I already knew since I was a kid and I was hooked.

Jack Van Rijn is an amazing mentor, I could work on any project with him, he is a leader of leaders. I have been in Kin for three years, so far being president of my home club and now DG. One of my favorite memories so far is election night 2016. I did not plan on running for an executive position as I didn't think I was ready, but seven senior members thought differently .

District 4, so many things going on!!

Kin Kindness is February 24th, is your club participating?
